

ROCOL (ROC53023)

RTD® Compound Tin 500g

ROCOL RTD Compound is a soft paste and is suitable for all metals including hardened steels, titaniums and nimonics, in even the most severe cutting operations. It helps prolong the life of the tool and helps to ensure a smooth clean cut edge and eases cutting operations. It contains technically advanced extreme pressure additives which significantly reduce friction at the cutting edge giving superb performance. As a result RTD extends tool life and promotes superior surface finish, bringing cost saving efficiencies as well as improved quality. RTD Compound is the world leading hand applied lubricant for reaming, tapping and drilling and has been the market leader for over 60 years. A must have product for all machine shops, tool rooms and maintenance departments. 1 x ROCOL RTD Compound Tin 500g
